

“

This fellowship allowed me to enter into a specialty field I always aspired to practice in.

I was forced out of my comfort zone and challenged to practice at levels I never thought obtainable. All of this was made possible by the physician attendings who served as exceptional mentors and teachers. I always felt supported, and that my success was their primary goal. Further, I was treated as an equal by the physician co-fellows.

The knowledge I acquired in one year has more than prepared me for a lengthy career in addiction medicine. In fact, I have secured a job at the conclusion of this fellowship which I was able to hand pick. None of this could have come to fruition without the ISTP program.

- Alix Stalmakov,

2024 Program Graduate

”

Purpose

The University of Iowa's Integrated Substance Use Disorder Training Program's (ISTP) aim is to increase the number of addiction medicine specialty-trained nurse practitioners and physician assistants. This program will train two Advanced Practice Providers (APPs) annually. Each position includes a stipend plus fringe benefits. ISTP trainees will develop expertise in:

- Diagnosis and management of substance use disorders and withdrawal.
- Medication for addiction treatment (MAT)
- Motivational interviewing
- Management of co-occurring medical and psychiatric conditions
- Harm reduction
- Principles of counseling to strengthen recovery

Eligibility Requirements

- US citizen or legal permanent resident
- Currently licensed or license-eligible nurse practitioner or physician assistant (PA) in Iowa
- Willingness to work full-time during training year
- Interest in serving as an addiction medicine specialist to your practice and/or area

Highly Desirable

- Psychiatric experience **AND/OR**
- Experience as an independent provider

Lecture Series

The University of Iowa Addiction and Recovery Collaborative (UI ARC) hosts the Addiction Medicine Lecture Series, which is two hours/week of didactics covering a wide variety of addiction medicine topics spanning clinical care, research, and policy. Faculty physicians, residents, fellows, medical students, nurses, nurse practitioners, social workers, physician assistants, psychologists, and other staff participate in didactics via in-person attendance and/or video conferencing.

ACAAM Membership and Didactics

Trainees will have membership and access to two hours of didactics each week through the American College of Academic Addiction Medicine (ACAAM).

Conference Attendance

All trainees will have the opportunity to attend a national addiction medicine conference and a regional or state conference.

How to Apply

To initiate your formal application process, please forward the following materials to our program coordinator, Amanda Eleazer, via email: amanda-eleazer@uiowa.edu.

- Curriculum vitae (CV)
- Headshot
- Personal statement
- 3-5 professional references who will be contacted during the recruitment process

Completed submissions will be reviewed within four weeks and invitations for interviews will be extended.
