

# Interested in Free Training?

UI ARC has numerous educational opportunities focused on opioid use disorder, including providing presentations and trainings on naloxone, buprenorphine, and other management strategies for opioid use disorder and overdose.

***These trainings come at no cost, and we also offer free CE.***

## Current training offerings:

- **Substance Use Disorder Overview**
- **Overdose Recognition and Naloxone Administration**
  - Naloxone provided
- **Overdose Recognition and Naloxone Administration Training of Trainers Session**
  - This more in-depth training certifies participants to train others to administer naloxone on their own time. UI ARC will provide any resources possible to help participants spread this education throughout the state.
- **General and Advanced Buprenorphine Trainings**
  - Including 8-hour training sessions through PCSS (Providers Clinical Support System) which would fulfill this new DEA requirement
- **Substance Use Disorder in the Workplace**
- **Alcohol Use Disorder and Withdrawal Management**
- **Stimulant Use Disorder**
- **Perinatal Substance Use**
